4.4 氢电助力车

HYDROGEN POWERED EBIKE

Benefits

▪ Long Range, over 100 km

▪ Integrated electronic control solution makes effcient, stable power output and low hydrogen consumption

▪ Low-pressure solid-state hydrogen storage for safety and reduced maintenance costs

▪ Intelligent central control for comfortable driving experience

▪ Minimalist and aesthetics

Fuel cells vs. batteries

▪ Large power storage

▪ Long life

▪ Fast refueling

▪ Eco-friendly

Fuel cells vs. internal combustion engines

▪ Clean & zero-emission

▪ Near silent operation

▪ Reduced maintenance. No moving parts. No tuning

▪ Vibration free for maximum stability
