4.5 氢电电动两轮车
HYDROGEN POWERED ELECTRIC SCOOTER

AIR COOLED

SEEEX TECH provides different travel options for a green, zero-carbon lifestyle. Lightweight fuel cell stack and electronic control system design make effective utilization of the entire vehicle space, making sure the steady power output for long range.

Benefits

▪ High Power Output & Fast power response
▪ Strong power of motor
▪ Long range, up to 70km or more
▪ Complete system fault protection
▪ Reliable and up gradable firmware with support for software version update

Fuel cells vs. batteries

▪ Large power storage
▪ Long life
▪ Fast refueling
▪ Eco-friendly

Fuel cells vs. internal combustion engines

▪ Clean & zero-emission
▪ Near silent operation
▪ Reduced maintenance. No moving parts. No tuning.
▪ Vibration free for maximum stability
